PRODUCT DESCRIPTION

Royal PX1000MX Console Cross Cut Paper and Media Shredder 5 32 x 1 5 8 Comes in White or Black Colors. The Royal PX1000MX is a vertical feed crosscut shredder, that also features a separate slot for destroying CD s, DVD s , 3 1 2 floppy disks and credit cards. I have been using the Royal PX1000MX, or as I like to call her, The Royal piece of goodness , for about three weeks now, faithfully destroying all of the paper documents or computer files on disk, that I don t want the big man to see. The PX1000 has a very calm and quiet shredding process compared to other shredders. It is also very accessible. By simply pressing the on switch and sliding in up to one to ten pieces of paper, and watch within seconds your confidential papers are forever hidden. By the end of the day your cheekbones will start to swell due to an over abundance of happiness that this beauty gives. The PX1000 has a large pull out drawer that makes it very easy to dump your shredded waste. With Royals patented safety bar, the PX shuts itself down if the drawer is open. Keep in mind that the PX1000 has a space saving design that allows you to easily place the shredder under a desk or next to a copier or in any convenient space.
