PRODUCT DESCRIPTION

The MBM DestroyIt 4004 CC 316 is equipped with a 2 speed system to handle two types of shredded material. The highest speed is used during bulk feed of large quantities of paper, up to 40 sheets of paper per pass. The other power speed is used for efficient shredding of computer print outs or small paper amounts. The new cabinet design includes box for shred collection and foot operated pedal pushes down to increase cabinet capacity. It has a photo cell sensor that starts and stops the cutting heads automatically and a switch for continuous operation. The 4004 CC 316 comes equipped with an electronic door safety switch that automatically shuts down the cutting head when the door is opened. A thermal overload switch is added to keep the machine cool to avoid overheating. Optional EDP computer forms rack and sound covers are available at an additional cost.

PRODUCT FEATURES

PRODUCT SPECIFICATION

Voltage	115 Dedicated 20 Amp volts
Horsepower	2.8 hp
Shred Capacity	40 sheets
Shred Size Width	.1875 in.
Speed	48 ft./min.
Throat Opening	16 in.
Waste Bin Volume	44 gal.
