### PRODUCT DESCRIPTION

The IPS 16D 1 2 is a compact, knife mill disintegration model for heavy duty specialized departmental needs. It easily destroys paper, plastic, corrugated boxes, wire, metal and newspapers, cutting the material into 1 2 strips. A pinch style conveyor system compresses corrugated material, PET and PVC beverage containers. The material is then force fed into the shredder where it is reduced to 1 2 shred sized particles. It has a box like design that saves office space and rolls on casters for office mobility. Waste volume is limited only by shred bag or output hopper size. The 16D 1 2 is capable of cutting up to 110 feet per minute for fast shredding operations. Optional spare knives and filtering screens are available.

### PRODUCT FEATURES

### PRODUCT SPECIFICATION

Shred Type	Strip Cut in.
Shred Capacity	45 sheets
Speed	110 ft./min.
Motor Strength	1 hp
Shred Size Width	.5 in.
Feed Opening	16 in.
Voltage	115 volts

### DIMENSIONS

Weight:	330.00 lbs.
Width:	28.00 inches
Length:	26.00 inches
Height:	43.25 inches
