PRODUCT DESCRIPTION

The IPS 16D 1 4 is a compact, knife mill disintegration model for heavy duty specialized departmental needs. It easily destroys paper, plastic, corrugated boxes, wire, metal and newspapers, cutting the material into 1 4 strips. A pinch style conveyor system compresses corrugated material, PET and PVC beverage containers. The material is then force fed into the shredder where it is reduced to 1 4 shred sized particles. It has a box like design that saves office space and rolls on casters for office mobility. Waste volume is limited only by shred bag or output hopper size. The 16D 1 4 is capable of cutting up to 110 feet per minute for fast shredding operations. Optional spare knives and filtering screens are available.

PRODUCT FEATURES

PRODUCT SPECIFICATION

Shred Type	Strip Cut in.
Shred Capacity	45 sheets
Speed	110 ft./min.
Motor Strength	1 hp
Shred Size Width	.25 in.
Feed Opening	16 in.
Voltage	115 volts

DIMENSIONS

Weight:	330.00 lbs.
Width:	28.00 inches
Length:	26.00 inches
Height:	43.25 inches
