PRODUCT DESCRIPTION

The Oztec 1275 OS has an open frame design allowing the user to monitor shredding operations. Its special lock and key feature prevents unauthorized shredding by requiring the user to unlock the machine before use. The 1275 OS features a Quick Stop button for added safety, re set switch and visual indicator lights to keep the user informed of shredding operations. The 3/4 horsepower, continuous duty motor never requires a cool down period. When the bag is full, the 1275 OS automatically stops so the contents of the waste bin can be removed. Includes high stability stand made of rolled steel tubing to hold shredder. Stand is equipped with wheels for maneuverability around the office.
