PRODUCT DESCRIPTION

MBM Destroyit 2360 SMC Super Micro Cut High Security Paper Shredder The Destroyit 2360 SMC High Security Shredder from MBM is a great fit for low to mid volumes of shredding. The Destroyit 2360 SMC High Security Shredder features a SPS Safety Protection System package with a electronically controlled, transparent safety shield in the feed opening. It also includes an Easy Switch control element that uses color codes and back lit symbols to indicate operational status. The Destroyit 2360 will automatically stop when your shred bag is full or when the cabinet door is optned. It also has an automatic reverse and stop in case of paper jam. The Destroyit 2360 SMC High Security Shredder has double protection against overheating, automatic start and stop controlled by a photo cell, high quality hardened steel cutting shafts that accept staples, paper clips, and credit cards. All Destroyit Super Micro Cut shredders have a 1 year warranty on their Cut shafts and wheels. All other parts have a 1 year warranty excluding wearables . FEATURES Quiet and powerful single phase motor Fully enclosed, dust proof gearbox housing High quality wooden cabinet mounted on casters Environmentally friendly reusable plastic bag Super Micro Cut Model Meets all NSA CSS Specifications and is DOD approved 9 1 4 Gallon Bin Capacity Particle Size 1 32 x 3 16 Sheet Capacity 5 7 sheets Shred Speed 27 ft min Security Level 6 Feed Opening 9 1 2 Max. Horsepower 1 2 Dimensions 11 3 4 D x 15 1 2 W x 25 H Weight 49lbs The biggest selling point of this device is the extremely high security which it provides. The hardened steel blades convert full size documents into tiny confetti. The pieces left are only 1 32 inch by 3 16 inch and are virtually impossible to reassemble. This meets the standards for NSA and CSS specifications for document destruction and is

PRODUCT SPECIFICATION

DIMENSIONS

Weight:	49.00 lbs.
Width:	15.50 inches
Length:	11.75 inches
Height:	25.00 inches

DOD approved as well. You can rest assured that any confidential information you need to dispose of has been thoroughly obliterated. The Safety Protection System works to prevent accidental injuries. An electronically run transparent safety shield keeps fingers and other objects from entering the blades. A single multifunction switch toggles between stand by, stop, and reverse, simplifying operation to one button. The automatic stop also activates when the shred bag is full, if the cabinet is open, or in the event of a paper jam. If a paper jam occurs, the auto reverse sends the paper back out to the user, helping to unclog the blades. An energy saving mechanism powers the machine down to a sleep mode after one hour of inactivity, saving you precious electricity. A powerful, single phase motor drives the shredder. It is double protected from overheating in order to reliably run and save you money on costly repairs. A dustproof housing encloses the gearbox, ensuring the device stays in top working condition. Items are inserted into a 9.5 inch feed which accepts up to 7 sheets at once and begins shredding automatically. Paper is quickly turned into miniscule particles as fast as 14 feet per minute. The remnants fall into a 9.25 gallon bin fitted with an environmentally friendly reusable plastic bag. The container is housed in a high quality wooden cabinet which acts as a noise reducer.
